PRICE TWO CENTS

FIRST CRIMINAL CASE HEARD IN SUPERIOR COURT

Tim McVickar Pleads Guilty and is Given a Jail Sentence of Three Months

The first criminal case to be tried in the superior court at Exeter was heard on Wednesday when the case of the state against Eugene F. Collins of Laconia, who was indicted on the charge of embezzlement of \$300 from the Singer Machine Co. for which he was an agent, was taken up.

There were several witnesses who testified that Collins sold them sewing machines and gave them receipts while the manager of the company testified that he never turned the money over to the firm. County Solicitor Ernest L. Gopill of Portsmouth conducted the case for the state, and William H. Sleeper of Exeter for the defendant.

The jury after being out five minutes, brought back a verdict of not guilty on the charge of which he was charged with, the embezzlement of \$300. In the course of the after-

noon two juries were drawn for the trial of other cases.

A jury was impaneled to sit on a Windham case in which the plaintiff, Mary A. Burnham, brings suit against the town of Windham for alleged damage caused by a defective highway which allowed the water to flow into her cellar. She alleges this did much damage to the contents of the cellar, and also to the underpinning of the house. The attorneys are Eastman, Scammon and Gardner of Exeter for the defendant, and the firm of Hamblett & Spring of Nashua for the plaintiff.

Timothy McVickar of Boston, who was indicted on a charge of breaking and entering a store at Portsmouth and stealing \$155 worth of guns and revolvers, etc., and who, previously, pleaded not guilty, retracted his plea and changed it to guilty. He was ordered to pay a fine of \$20 and given a jail sentence of three months.

STATE COUNCIL BEING HELD HERE

Annual Session of Daughters of Liberty

Delegates from every New Hampshire Council of the Daughters of Liberty assembled in this city with Addie P. Burkitt council at N. E. O.

P. Hall on Daniel street to participate in the annual state council. The convention was called to order at 11 o'clock and the reports of the various officers and committees were submitted for approval.

At noon a dinner was served the visiting delegates in G. A. R. hall, by the members of Storer Relief Corps.

This afternoon the annual election of officers will take place and the place for holding next year's convention will be selected.

A committee from Addie P. Burkitt, council consisting of Mary A. Lane, Mrs. Cora Cook, Mrs. Merle Higgins, city.

Mrs. Annie Knight, Mrs. Mary Hanscom, Mrs. Evelyn Baker and Mrs. Florence Willey looked after the entertaining of the delegates.

PORTSMOUTH WILL NOT BE REPRESENTED

At Track Meet at Durham Next Saturday

Portsmouth high will not be represented by a track team at the first New Hampshire interscholastic athletic meet, to be held on the New Hampshire college oval at Durham next Saturday.

The team has been in training for several weeks and it was confidently expected that it would make a good showing, but to use the expression, it seems to have been up against it, from its inception.

When the track team was organized Folsom Jenkins, one of the most promising athletes in the school was elected its captain. He was soon obliged to resign in order to go to Annapolis to take a preparatory examination for admittance to the naval academy.

The present captain, James McCarthy, recently had the misfortune to dislocate his shoulder and Philip White, another member of the team, is unable to take part. These and other causes make it impossible for the boys to compete at next Saturday's meet.

TO PLAY FOR \$100

The Young Emmetts football team who are doing much in the athletic line of late, will have it out on the Locust street grounds, South Boston, on Decoration day, with the Galway Athletic club of Boston. The winners will carry off \$100, and the Emmetts say the cash is coming to this city.

PROSPECTS FOR KEEPING P. & E. ROAD ARE BRIGHT

Local Merchants Have Subscribed for Purchase of Track Bed Within City Limit.

The Herald is in a position to should be an incentive on the part of state from persons interviewed that our people to use their utmost of the necessary amount of money can forth to have the road continued in be raised for the purchase of that operation.

The keeping open of the Portsmouth and Exeter railroad to the street railroad that lies within the mouth and Exeter railroad to the confines of the city of Portsmouth, surrounding towns of Greenland and Ever since the road was sold at Stratford means much to the merchants, a quiet canvass has been chanted of Portsmouth.

Since this road was opened to travel with the result that a sufficient of the people living along its route sum has been pledged for the purchase of the road bed.

The action of the residents of the many thousands of dollars have been town of Greenland at the largely at left with our merchants.

tended meeting on Wednesday evening. We have got this trade and an ing and the active interest being earnest effort should be made to taken in the matter by the citizens save the railroad and not have the of Stratford to retain the road, trade diverted to other channels.

BIDDEFORD PARTY WERE ENJOYING PERFORMANCE

Somebody Started Story They Had Met With Automobile Accident

The Biddeford Journal says a fake story was in circulation late Tuesday afternoon and evening, to the effect that Francois Pelletier, the Biddeford ice dealer, and a party of Biddeford and Saco men, who has gone to Boston to bring Mr. Pelletier's new automobile down over the road, had met with an accident near Portsmouth, N. H. The story had one man killed and other members of the party being badly injured, while the new automobile was a wreck.

The story was first started in a store on Main street, where Mr. Pelletier's son happened to be at the time. The boy said he was anxious to see his father's car, as he wanted a ride, and he was told that the car had been wrecked near Portsmouth and the Saco man who was driving had been killed. The boy communicated with his sister, and the latter was given a severe shock, and suffered greatly, as the result of the news she received.

Chief of Police Thomas Stone hearing the story immediately telephoned to City Marshal Entwistle at Portsmouth, and the officer said it was news to him. He, however, said he would investigate, and later telephoned Chief Stone that there was not one word of truth in it, and that the members of the Biddeford party at the time were attending a performance at a theater in Portsmouth. Mr. Pelletier, upon hearing the substance of the story circulated in the city, immediately made arrangements with the other members of the party to leave at once for Biddeford, in order to prove there was no truth in the yarn. They arrived in Biddeford at 1 o'clock this morning, all in good health and spirits.

WEATHER FORECAST

Washington, May 8.—Forecast for Northern New England—Showers Thursday; Friday fair, somewhat warmer; moderate to brisk shifting winds.

Local forecast for Portsmouth and vicinity—Thursday fair; Friday fair and warmer; moderate variable winds, becoming southerly.

NOTICE

Special meeting of Portsmouth Catholic Union, Friday evening, May 10, at eight o'clock. All members are requested to be present. Business of importance.

THREE POLICEMEN APPOINTED TO ENFORCE DOG LAW

Mayor Badger Appoints Capt. Burke and Officers West and McAffery

Look out for your dog! Beginning on Friday the dog officers will be out after the canines who have not been covered by the necessary license at City Hall which is due on May 1. On Wednesday Mayor Badger appointed officers Burke, West and McAffery to hunt up all the stray dogs and cage them up in the dog pound in the city yard where they will later be shot unless the law is complied with.

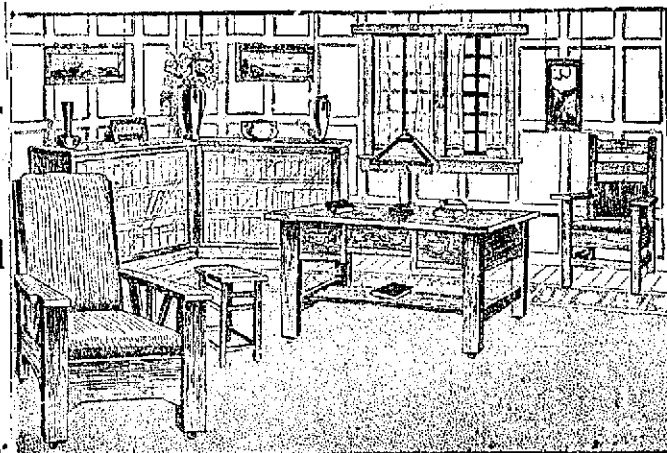

SAVANNAH LINE WELL EQUIPPED

The question of life saving appliances on trans-Atlantic liners has so monopolized public attention recently that little attention has been paid to what provisions the coastwise steamers have for saving lives.

The Ocean Steamship Co., operating the Savannah Line, is one of the few companies that has always more than protected their total number of passengers and crew in case of accident. In each of the nine steamships owned by the Savannah Line, there is life boat and raft accommodations in excess of the number of passengers and crew, and in addition there is a life preserver for every person aboard, with some to spare.

CHANGE OF VAUDEVILLE

A good, new and original act was presented at Music Hall this afternoon by Faust and Faust, pantomime.

Now Put Your Books in Globe-Wernicke Cases

Summer dust is a great destroyer of books. It slips in through the windows and cracks and settles in a fine grinding power on the delicate white leaves of your favorite volumes.

This dust is laden with all the filth and germs of the street. It soils the edges and spoils the appearance of the books you want to keep.

Soiled books at best look badly and lose much of their charm.

Protect you with Globe-Wernicke cases, always closed tightly, always ready for use, always ready for more.

Margeson Brothers,

The Quality Store Telephone 570
Specialists in Home Furnishings

Comic comedians. They have travelled all over the world with this act and have met with wonderful success. This is a comedy act that is something out of the ordinary and was well received.

Robber and Tumson are songsters of merit and presented a pleasing and well appreciated act.

POLICE NOTICE

Notice is hereby given that all violations of the law regarding the speeding of automobiles, the use of the sidewalks by bicycles and the posting of advertisements on fences, trees and posts will be prosecuted without other notice to the offenders.

THOMAS ENTWISTLE,
City Marshal.

NOTICE

It seems good to see the sun once more, after its enforced absence. Dog license now due. Payable at City Clerk's Office, City Hall.

HOUSE AT KITTERY POINT DESTROYED BY FIRE

The house of Mrs. Emma Adams at Crockett Neck, Kittery Point, was destroyed by fire on Wednesday afternoon.

The fire caught from a defective chimney and when discovered it had gained great headway. Mrs. Adams was absent from the house at the time and the fire was discovered by neighbors, who succeeded in getting out a small part of the furniture, and saving the barn near the house.

The house itself was burned to the ground. The loss is estimated at about \$1500.

FLOOD VICTIMS BEING RESCUED

New Roads, La., May 8.—It is believed by those in charge of flood relief work that practically all the marooned inhabitants of Pointe Coupee parish will have been rescued by the end of the week. Texas & Pacific Railroad officials say their road has transported about 7000 people from points along their line in the upper part of the parish.

The Texas & Pacific station at New Roads is crowded with white refugees waiting to be taken to the relief camp at Baton Rouge. Among them are four women who were rescued near Morganza. They had stood in water several feet deep for nearly three days, when boatmen reached them. The women, who were on the verge of collapse when rescued, lost everything except the clothing they wore.

The waters from the Torras crevasse continue to spread over Baton Rouge and Iberville parishes. The situation in the country between the main line and the Port Allen Branch of the Texas & Pacific Railroad is about as dark as words can paint it.

The main line of the road is washed out in numerous places, and the inhabitants of the interior are cut off from access to relief trains. The only way they can be reached is by power boat. The Government representatives have arranged to send out a fleet of power boats into that territory today.

Lieut. Weeks of the United States Relief Corps at Baton Rouge has given

STATE WINS CRAW- FORD NOTCH CASE

The governor and council have won their case in the supreme court for the acquisition of Crawford's Notch and other scenic property in Hart's Location.

In a petition entitled State vs. Morcy and others, the governor and council complained that the principal owners of the tracts in Hart's Location refused to sell, and the officials requested the appointment of a commission to assess the damages to owners due to the taking of the property by the state under the right of eminent domain.

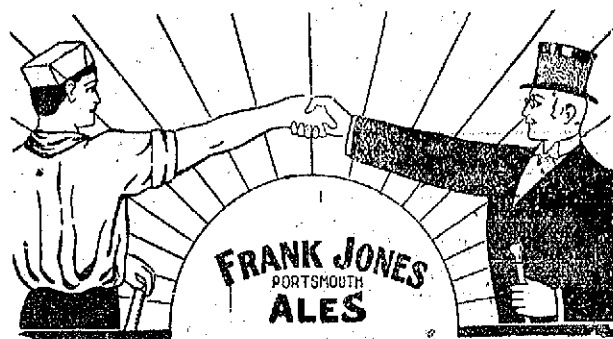

Tuesday afternoon the court appointed as such commission the Hon. Edwin G. Eastman of Exeter, Herbert G. Moulton of Lisbon and James E. French of Moultonboro. The state will provide surveys for the work.

BIG HAT FRIGHTENS HORSE

When the decorations on the spring and summer lids of the ladies will cause a horse to run away, there must be some class to the headdress of 1912. This happened at Dover. The peaceful equine, hitched up to a post on Central avenue, stood for everything that passed along until a pair of enormous crown pieces flashed before his eyes. The combination of feathers and flowers was too much and after a short exhibition of prancing he broke away and headed for his home camp. He was captured before any serious damage occurred.

PORTSMOUTH MINISTERIAL ASSOCIATION

The annual meeting of the Portsmouth Ministerial Association will be held at the Y. M. C. A., on Monday morning at 10:15. A paper will be read by Rev. L. D. Bragg. At this time the reports for the year will be made and new officers elected.

A Want Ad Pays Well

All-Time is Pill-Time

Why should you elect to suffer when the wonderful curative power of Beecham's Pills is at your command.

If you have headache, backache, nervousness, depression of spirits or any of a score of troubles coming from a disordered digestive system you can rest assured you need a corrective. There's none better than

Beecham's Pills

They will spare you hours of suffering. After a few doses your digestion will be better, your liver more active, your bowels regular, your system cleared of the poison resulting from indigestion.

By a systematic use your nerves will be toned up, your health improved, your blood made richer and purer. With judicious use Beecham's Pills

Will Cure You

At druggists, 10c, 25c. Directions of special value to women with every box.
Beecham's Pills have the largest sale of any medicine in the world.

WILL NOT RECON- SIDER RESIGNATION

Rev. Charles H. Emmons, pastor of the Universalist church, has refused to reconsider his resignation, and it will take effect the last of June. The parish at a recent meeting unanimously voted not to accept his resignation, and urged him to reconsider, but the pastor after thinking it over has concluded that he had better leave. He gives as his reason that while the vote to have him reconsider was unanimous, there are a few families in the parish whom he has been unable to agree with, and rather than have any strife he will leave.

COUNTRY CLUB NOTES.

Eleven applications are pending election by the executive committee, which meets on Saturday evening. This very nearly closes the membership.

The first of the Ladies' days will be held at the club on Thursday, May 30, and they will be continued through the season on every other Thursday.

Contractor P. D. Shea is engaged in rebuilding two of the tennis courts, and he has re-surfaced the two other courts.

Several of the members of the Country Club will play in the annual Spring golf tournament of The Country Club at Brookline, Mass.

It is expected that some of the cottages will be opened the last of the month for the season.

Danderine

**Stops Falling Hair and
Destroys Dandruff**

Makes the Hair Grow Long, Heavy
and Luxuriant and We Can
Quickly Prove It

If You Wish to Double the Beauty of
Your Hair at Once, Just Get a 25
Cent Bottle and Try This

Surely try a Danderine Hair Cleanser if you wish to immediately double the beauty of your hair with little trouble and at a cost not worth mentioning—just moisten a cloth with a little Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil—in a few moments you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance, the beauty and shimmer of true hair health.

Besides beautifying the hair, one application of Danderine dissolves every particle of Dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. It's exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks' use will cause new hair to sprout all over the scalp. Use it every day for a short time, after which two or three times a week will be sufficient to complete whatever growth you desire.

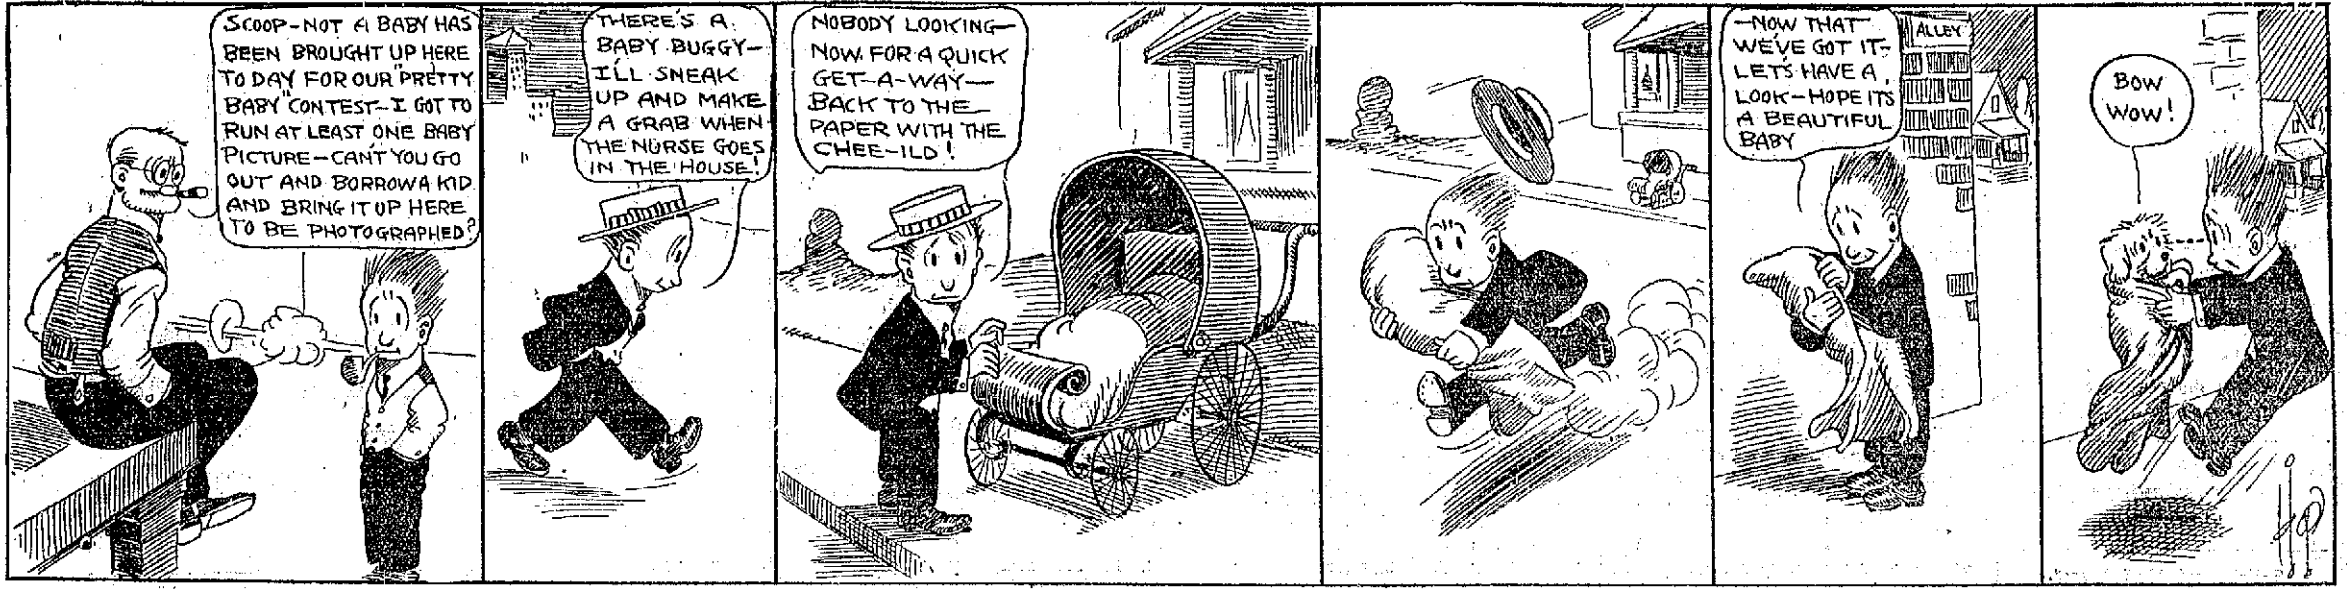

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Danderine from any drug store or toilet counter and try it as directed.

MINERS HAVE BATTLE WITH THE POLICE

Unsettled Condition in the Mining District--Four Killed.

Pottsville, Pa., May 8.—In a pitched battle between the State police and a crowd estimated at between two and three thousand men at Minersville early this morning four men are known to have been shot and three were probably fatally wounded. It is believed that a dozen or more others were also struck by bullets, but were not seriously wounded and did not seek medical attention. A woman, Mrs. George Well, who was standing on her porch, was struck on the arm by a brick and was painfully injured. The men who are thought to have been fatally hurt are: David Davis, shot through the stomach, and two foreigners, not identified by the authorities at this time. Another foreigner was shot through the leg and was seriously wounded.

The fight occurred on Fourth street in the central part of the town, and came as a result of a crowd gathering in front of Ulmar's garage, the old electric light plant, to prevent Superintendent George W. Kelser of the Pine Hill Coal Company from taking two men in his automobile to his colliery. Superintendent Kelser had been coming to Minersville the past several days and taking Thomas Parry, a repairman, and William Ward, a pumpman, to work in his car. This morning it was determined to prevent him from taking the men and at an early hour a big crowd gathered in front of the garage. When Superintendent Kelser called for his machine he was warned not to take it out and was practically held a prisoner at the place. Chief Burgess, the State police barracks at Pottsville, to send a detail to Minersville.

six of these are from Troop D at Butler and forty from Troop A at Greensburg. At Minersville this morning my men were compelled to shoot to protect both themselves and the men they were assisting. They now have the situation well in hand."

The State police left Minersville for the Pine Hill colliery nearby, where an attack was feared upon Superintendent Kelser and the men working there. It is announced that when additional reinforcements arrive the entire foreign section of the town will be put under guard until a thorough search is made of every house and every foreigner is disarmed. A pathetic incident of the shooting of David Davis is that his wife is seriously ill. When she learned of the shooting of her husband, who was merely an on-looker, she had a relapse. Neither is expected to survive the day.

BOWLING.

Brewery Teamsters Win.

The Brewery teamsters demonstrated on Wednesday evening that they are some bowlers and now claim the championship. Pickering's team of freight teamsters have had the impression that they were the real goods, but the Brewery men last evening took them down a peg.

The game was rolled at the Elks alleys and after the first string there was nothing to it, and O'Brien's men were there with the goods.

The summary:

Brewery Teamsters.				
Foley,	89	88	131--	308
Crowley,	71	80	96--	247
O'Brien,	67	61	77--	205

"Had dyspepsia or indigestion for years. No appetite, and what I did eat distressed me terribly. Burdock the State police barracks at Pottsville, besides Troop C. Forty-six additional well drilled men in Blood Bitters cured me."—J. H. Wal-

Manager of White Sox and Three of His Stars, Now Cutting Wide Swath in American League Race

Chicago, May 9.—Jimmy Callahan's White Sox, once the "hittless wonders," but now the slugging demons, are cutting a wide swath in the American league race this season. The White Sox now lead the league in three departments—in the percentage table, in club batting and in extra base hitting. For an outfit that long was famed for its ability to score runs without hitting the ball that is doing fairly well. In fielding they are a close second to the Athletics. If the Sox continue to hit the horseshoe as they have been hitting it they will make a lot of trouble in this man's league before the season is over. With a pitcher of Ed Walsh's ability and ambition any outfit that can score even a moderate number of runs is bound to be dangerous. The big spitballer is effective against almost any club almost every time out, and he needs only a little backing up with the stick to make him a positive terror. Walsh works as often as he works well, and on his pitching alone the Sox would have to be rated as formidable. Big Ed is not the only curver with the Callahans however. Scott, Lange and White of the veterans have done good work this season, while in Benz, Peters and Delhi the club has a trio of excellent recruits. The Sox are the scrappiest aggregation of ball tossers in the circuit. In Manager Callahan, Third Baseman Lord, First Sacker Zelder, Outfielder Bodie and the veteran Kid Gleason, who is now coach, the club has five scrappers of the Johnny Myers type.

TAFT FORCES STILL HAVE A CHANCE

Baltimore, May 8.—The attitude of the Taft leaders in Maryland toward the peculiar situation that might develop through the working of the new State primary law was still undeclared today. While the delegates elected to sit in the State convention appeared on the primary ballots with no designation to indicate their affiliation, complete unofficial returns indicate that, leaving the matter of instructions aside, a majority of them will be personally friendly to the President.

Some of the Taft leaders say there will be 68 such Taft delegates to 61 known to favor Roosevelt. Although the unofficial returns declare that the counties and Baltimore city, by their preference vote, have instructed these delegates to choose a delegation to the National convention bound to vote for Roosevelt, the Taft leaders, according to their claims, could control the organization of the State convention and the personnel of the National delegates.

The Roosevelt leaders assert that they have no fear such a complication would rob them of the fruits of the victory they claim on the preference vote.

The Taft managers have made no statement beyond the declaration that they will not concede the National delegation to Roosevelt until the official canvass supports the result of the unofficial count. No application has been made thus far for a recount in any county.

The figures, complete for the Republican vote and practically complete for the Democratic, show that the preference vote of the State as a whole was as follows:

Republicans — Roosevelt, 20,124; Taft, 26,009; Roosevelt's majority, 3115.

Democrats—Clark, 34,283; Wilson, 22,466; Harmon, 7168; Clark's plurality over Wilson, 11,847.

For PORTSMOUTH and PORTSMOUTH'S INTERESTS

THURSDAY, MAY 9, 1912.

About this season of the year the small boy is wondering whether a circus will come to Portsmouth this year or not.

It is about time for the weather man to favor us with a different brand of weather. Just a little sunshine would be acceptable as we have had little drops of water long enough.

The Boston Transcript says it is not too early to have in this country a suitable memorial of Friedrich Froebel. The proposal to erect in Washington a shaft in memory of the world's great educator should win country-wide support.

Now it is claimed that Parson Richeson was a Mormon elder and secretly connected with the Mormon organization of the United States. To the outside world it would look as though he had lived up to that faith in more ways than one, if all reports published concerning him are true.

The National Boot and Shoe Manufacturers' Association recommends in its recent report a campaign to do away with the fake sample shoe stores. This looks like a hard proposition, as many persons like to be lugged and will persist in buying sample shoes as long as crafty tradesmen will place such goods on the market, even if they are of the vintage of 1776.

The Lowell Sun says the story of the Titanic disaster as told in the investigation at Washington shows very conclusively that there is too little regard for the steerage passengers in case of danger. When the accident occurred there was an effort to keep the steerage passengers in the dark as to the nature of the damage to the vessel. The officers evidently feared that if the steerage passengers realized the danger they would create a panic. Hereafter the majority who travel by steerage will have to be protected as well as those who occupy the "palatial" suites of the first and second cabins.

The Malden News says it is quite probable that in a few months we shall return to the use of the half cent which was discontinued some years ago. Nearly every country in Europe has a coin of the value of an half cent and many have coins even smaller. In new countries where money comes easy it is often the custom to sneer at small coins. For many years no coin less than a nickel was current on the Pacific coast and the Easterners were referred to as "clown" because they used cents. In the British Isles the farthing is the equivalent of a half cent and it is used considerably among frugal people and is used in the post office in connection with the sending of papers. The half cent will result in the aggregate of a great saving to the purchasing public which finds many articles marked at so many cents and a half which means that the merchant gets the extra half cent unless two are purchased. With the continuing upward tendency of prices there are many people who have to figure pretty closely and the half cent will not come amiss.

BIRD'S EYE VIEWS.

Talk of banquets and receptions for Titanic survivors who have been under criticism may be in the nature of a ruse to lure them into range of a stenographer's pen.

People leave the city to escape the crowded sidewalks and when they get out into the country they complain of tramps, but they might as well

die by the sword as by the pestilence.

An Oklahoma editor is going to walk to the Baltimore convention. Considering the way the trains have been running, that is good judgment if he wants to get there in time.

The courage displayed in the republican presidential contest cannot be expected, under the circumstances, to persuade Mr. Carnegie to bestow a hero medal on the survivor.

The embarrassment of Senator La Follette through his advisory oratory was a warning which some of his former political associates positively refuse to heed.

If the campaign parade is to be revived the men may as well get out their old overcoats and make preparations for a night out in a torchlight procession.

The work of judiciously disbursing a big relief fund is sometimes more difficult to organize than that of collecting it.

Radium, for some unexplained reason, is at present creating neither scientific interest nor neighborhood gossip.

The colonel said that Mr. Taft had no right, nor his manager, McKinley, to call this campaign for the nomination a prize fight.

Some people slug each other over the ropes whenever they have a chance. Other people hang themselves if they are only given rope enough.

All that should be needed to soothe Canada's feelings is the discovery of a polite and satisfactory definition of the word "adjunct."

There is some spirited controversy as to the exact meaning of the possessive pronoun when the band plays "My Maryland."

Never mind about the Queen of the May. The rivalry hereafter will concern the leadership of the suffragette parade.

The Allens now understand something of how the people they were accustomed to terrorize used to feel.

While Roosevelt does not approve of Lorimer, he finds him useful in an oratorical way.

AMONG OUR EXCHANGES.

Italy's Costly Vanity.

Daily it becomes clearer that Italy did a very foolish thing when she formally, by legislative act, reversed the annexation of Tripoli and Cyrenaica, and re-created the African province of Libya. But for that act peace might be arranged very quickly. It was pointed out that Turkey had first protested that she would never consent to mediation. Then, still protesting, she consented to mediation, but would never surrender her African garden. The decision was ventured that Turkey would gradually relax still further.

And now it is the doughty war minister, Mahmoud Shevket Pasha who says: "We are willing to grant her (Italy) any concession, any demand, this is in keeping with our dignity as an awakening power and with the prerogatives of our beloved Padijah and Khalif. We are perfectly prepared, for instance, to leave to Italy the entire commercial and financial development of both Tripoli and Cyrenaica. But, unfortunately for the world, Italy is completely blinded to her own interests, and sticks to the word 'annexation' with that fatal fanaticism, which has often proved the ruin of a nation."

In other words, if Italy would not call Tripoli hers, she could have it. She could have it as France has Algeria and as England has Egypt. Vanity is often costly.—Boston Herald.

When the Children Help.

The State fire marshal has sent the superintendents of Wisconsin schools circulars requesting that they ask their young people to assist the work of fire prevention by taking care of combustible rubbish.

The superintendent of Kenosha who is also the president of the Wisconsin Teachers' Association, has replied that at the beginning of the school year she framed a "fire prevention pledge" which she has taken pains to popularize. This document binds the signers not to use kerosene oil for kindling fires, not to fill lamps after dark, or by artificial light, not to throw unextinguished matches on dry or inflammable substances, not to use coal oil for heating or other flimsy stuff for Christmas decorations and not to let

GREENLAND WILL DO HER SHARE TO MAINTAIN ROAD

Citizens Favor Town's Purchase of Roadbed if B. & M. Will Operate --Special Town Meeting Called.

At an enthusiastic meeting of the all present were in favor of the town citizens of Greenland on Wednesday evening, it was voted to favor the town purchasing the road bed of the Portsmouth and Exeter railway, lying within the town of Greenland.

The meeting was called at the town hall and despite the rain there were fifty odd property owners present. Mr. E. S. Danell was elected chairman and John K. Hatch secretary.

The meeting was called for the purpose of seeing what was the sentiment of the tax payers toward purchasing the road bed of the electric road, providing that the other towns would do the same, and that some company would operate the same. That the understanding had been reached that the Exeter, Hampton and Amesbury road would operate the road to Stratham Hill if the Boston and Maine would operate the road on this end to that point, providing the towns would acquire the roadbed.

The citizens of Greenland were very enthusiastic in the matter and

excelsior, old newspapers or other "dangerous materials" accumulate in cellars or such places where they might become a source of peril. The various sections of this comprehensive pledge have been discussed in the schools from time to time, the superintendent says, and she is convinced that many a boy and girl have thereby been brought to a keener sense of the service they may render the community.

This is one way, and a good way, to promote the civic consciousness in school children. Another method illustrated by the doling of the Good Citizen's Club, which was organized in the Pierce School at Brookline in the autumn of 1906, script.

No Privacy Tolerated. In the early days of Leadville a minister refused. During the first week of the club's existence one of habit, desired to change his shirt, the boys picked up more than 2000 and is room being on the ground pieces of rubbish. At the present floor of the hotel, and the window time it is a favorite diversion of the having neither blinds nor shades, he members to escort the teachers over pinned a newspaper over it. In their routes and defy them to find a stantly with a crash, glass, sash and bit of paper. Yet Brookline was newspaper were driven into the room never charged with being a slovenly by an indignant resident, who about municipality, and these two concrete ad: "We'll have no d— privacy instances suggest both the improve- here."

It needs no further argument to prove that efforts like those promoted at Brookline and Kenosha yield a reward from the very first moment; but a consideration of equal of the 240,000 statements, Mr. Pujos committee and a sufficient staff of Young people who have learned to refrain from littering the streets and "taking chances" with fire will soon forget the teaching—they will be likely, indeed, to pass it on to

cutted householder, and watch out, you beef trust! The price of terrapin is coming down. The government has arranged for the employment of an expert culturist whose function will be to bring the dainty diamond-back within the means of every one. So what if beef is sold at ruinous prices and potatoes like so many Klondike nuggets and eggs and butter and flour as if all Americans were millionaires? The price of terrapin is coming down, for which let all give praise! Suppose the Coney Island "hot dog" will not be sent to the pound, and the soup kitchens substituting diamond-backs for "lamb stew."—New York Herald.

The Maryland Muddle.

Nothing so iniquitous in the political laws of this state has ever existed as the preferential primaries, under which the people or a fraction of them voted yesterday. So far from being a medium for political expression and for party action they proved a stumbling block to the voters. Many republicans voted the word "republican" wherever it appeared and thus invalidated their ballots. The farcical nature of the law in its creation of dummy delegates, the conditions of uncertainty and of confusion that it bred, the slowness of the count that it entailed, the forms of complication that ran counter to the interests of candidates from the point of view of their popularity—all these are features of the law that mark it as utterly depraved and a blot upon the political institutions of Maryland.—Baltimore American.

KITTERY POINT

What Is Happening in the Harbor Town

Frank W. Lawry has launched his motor fishing boat "Gold Hunter," which has the distinction of being the first sailing craft in the river to be fitted with a gasoline engine. She has been practically rebuilt by Hiram Tobey, Sr.; during the winter, and to all appearances is now as good as new. May she and her veteran skipper long continue to flourish.

The next meeting of the K. F. G. Fancy Work club will take place at the home of Mrs. Frank Getchell on May 16.

The S. V. Fancy Work club will take place at the home of Mrs. Henry Marden on Friday evening.

Harry McKenney is enjoying a short vacation from his duties at the navy yard.

W. H. Palmer of Peabody, Mass., was a visitor in town on Tuesday. Arrived and sailed, U. S. Fish Commission Sch. "Grampus," cruising.

Frank Hutchins has taken a position as lineman on the Portsmouth Electric R. R.

Miss Margaret Fletcher is acting as assistant bookkeeper at White & Hodgdon's, in Portsmouth.

Joseph Sawyer has concluded his duties at the Atlantic Shore Line car barn.

The meeting of the Ladies' Aid Society of the First Christian church has been postponed until Thursday evening on account of the storm.

Ernest Tooley is enjoying a few days' vacation from his duties at the navy yard.

Word was received here Wednesday evening that the schooner "Bloomer," which left this harbor Tuesday morning, was totally wrecked while endeavoring to enter Boston harbor during the easterly storm on Wednesday. The "Bloomer" was one of the veterans of the coasting fleet, being built at Eden, Me., in 1855, and hailed from Tremont, Maine.

Soon after three o'clock on Wednesday afternoon, the house of Mrs. Emma W. Adams on Crockett's Neck took fire from a defective chimney, and burned to the ground. Mrs. Adams was absent at the time, and when discovered the fire had made such headway as to be beyond control of the fire company. Owing to the isolated position of the house, the blaze could only be fought by a bucket brigade, and with the strong wind blowing, the task seemed hopeless from the first. Much of the furniture on the ground floor was however, saved, and stored in a barn on the premises. The loss is estimated to be about \$1200, partially covered by insurance.

John Buzzell of Dover has taken a position at the Atlantic Shore Line car barn.

L. H. Hart has moved his family into the old Pepperell hotel.

Mrs. Danice Safford is confined to the house by illness.

SUFFRAGE NOTES.

At a meeting in Manchester of the charter members of the New Hampshire Men's League for Equal Suffrage the following officers were elected: President, Oliver E. Branch of Manchester; Vice-Presidents, Prof. Ernest R. Graves of Durham, Judge E. E. Parker of Nashua, Rev. Sydney M. Snow of Concord, and Dr. George Ray Wicker of Hanover; Secretary, Witter Dwyer of Cornish, and Treasurer, Rev. Henry G. Ives of Andover.

Judge Charles R. Corning of Concord is to be chairman of the Executive Committee which besides the president, secretary and treasurer is composed of Mr. Robert P. Johnston of Manchester, Dr. O. B. Douglass of Concord, Prof. Louis H. Dow of Hanover and Levin J. Chase of Concord.

The membership will be announced later of an Advisory Committee of influential and representative men from every county in the State. The membership of the League has grown rapidly all over the State. Plans were made to campaign independently of the other associations for the submission of the suffrage amendment by the Constitutional Convention in June; and it is hoped that the Men's League will hold mass meetings in Concord, Manchester and elsewhere between now and June.

Several of the officers of the League were in Phenix Hall, Concord, when Ex-Governor Franklin Fort of New Jersey spoke and were glad to hear him recommend to his audience that the suffrage amendment be submitted. Governor Fort concluded, "What cowards we men must be if we are afraid to have the women vote."

BOARD OF PUBLIC WORKS STATE FACTS

Tell How Water Works Would Have Been Benefited By Square Deal.

The members of the Board of Public Works say that many of the stories circulated of late with regard to the water department, show that the authors of these reports are not fully conversant with its affairs as evidenced by the many misstatements they contain; that the evident intention is to discredit past and present management, and to create the impression that the plant is not a valuable asset to the city.

The Board takes exceptions to those statements which reflect on the plant's earning capacity and its value to the city in this respect.

They say that besides all the money that has been taken from its revenues for enlargement and improvements during the city's ownership, that, had it received from other departments of the city the revenue that should have been collected from them, it would have been able, from these sources, alone, to set aside each year the amount it was expected to contribute to a sinking fund for the retirement of its bonds. In other words, the water department has helped to carry along and keep down the expenses of other departments by supplying them with water free of charge.

The fire department, they say, has been one of the largest beneficiaries nothing having been collected from it for hydrant service, excepting in one year, during the entire period of the city's ownership of the water works. The Board claims that this unbusinesslike method should never have been allowed to exist, but in plate holders, printing frames, etc., only one instance can they find with carrying case. C. D. Howard, 188 Lincoln ave. m9, h2, 1w

to is shown in the following communication to the city government seventeen years ago.

"Saturday, June 29, 1895.

"A meeting of the Board of Water Commissioners duly called was held at their office at eight o'clock p. m. Present Messrs. Rand, Philbrick and Heflinger. Voted that the following communication be presented at the next meeting of the city government To the Honorable Board of Mayor and Aldermen:—

"The Board of water commissioners would hereby call your attention to the fact that in cities and towns owning their water works, it is an established custom to allow the water department an annual rental of from thirty (\$30.00) to fifty (\$50.00) dollars for each and every hydrant set for use of the fire department. Believing that such a custom is a fair and just one, we respectfully ask that you allow the water department an annual rental of thirty (\$30.00) dollars on each hydrant now set, and on all additional ones that may be set from time to time. The number of hydrants being 150 the annual rental of thirty dollars per hydrant would make a total of \$4,500.00 to be allowed the water department annually for hydrant service as now in use. Trusting that you will give the matter careful consideration, we remain Very respectfully,

Frank J. Philbrick,
A. C. Heflinger,
J. S. Rand,
Water Commissioners."

The present management contends that the above request should have been granted, as it was "a fair and just one" and had it been allowed, and had been in force all these years, as it properly should, the revenue therefrom, including interest compounded would now amount to something over \$100,000. This amount is based on a revenue from 150 hydrants, the number then set, but during these seventeen years, many more have been added until now there are over 200, which shows that the money to the credit of this department would have been even more than the above figures had this legitimate source of revenue been in operation. The Board also claims that dating back to the last payment made, there is due from the school department about \$2,400 for water for schoolhouses. Other departments have been, they say,

beneficiaries to a greater or lesser extent, for which had this department received credit, would have made the sum, to a very hard some one, bearing out their statement with regard to the sinking fund.

Present imperative needs together with the suggestions for the increase of efficiency in this department have already been placed before the city council with the view of getting its cooperation towards the desired end of conserving the city's water supply, and at the same time lowering the cost of operation in producing it. Among the recommendations made several weeks ago are the following:

Meters for each service, another stand-pipe, capacity 1,500,000 gallons; lower and riser at Dover street reservoir; new line of 12-inch pipe from Sherburne Station to connect with the 12-inch line on South street.

The Board says that the first and most important step is in metering the city, which, based on statistics and experiences of other cities and towns shows that the present consumption of water in our city would be reduced more than one-half, with an approximately corresponding decrease of operating expense. They cite in support of this claim one instance particularly, that of the metering of 5 per cent of the Metropolitan district in the city of Boston, resulting in a 25 per cent decrease in the consumption. This they say is only one of many similar satisfactory results. They say that their suggestions were made only after much deliberation, and a practical and thorough investigation of the physical condition of the whole water system, and claim that the proposed additions and improvements are along the lines of absolute necessity and proper business management.

With regard to the special committee's report submitted to the council by three of their own body, appointed for the purpose and which was to the effect that the Board of Public Works' proposed plans are unwise and impractical, the Board asks that the council as a whole give this matter their most careful and unbiased consideration before passing upon a proposition so vital to the city's welfare.

RAILROAD NOTES

Supt. W. F. Ray of the Portland division was here on business of his division on Wednesday.

A crew of boiler makers are testing out several locomotives at the round house.

Albert I. Parissau of Newmarket, a former employe of the American Express transfer office at the depot, will manage the company's business at York Harbor this summer.

Several double headers in the freight service are run nightly on the Portland division through here.

The jury in the superior court at Concord returned verdicts in the two cases, Gage and Sawyer vs. Boston and Maine road. To Gage they awarded damages in \$5,000 and to Sawyer \$500. The cases grew out of a collision between a freight train and an automobile in which Gage and Sawyer were riding on a railroad crossing in Tilton.

RICHESON HAS SMALL CHANCE WITH GOVERNOR

Impression That He Will Refuse to Interfere With Death Sentence.

Boston, May 8.—The indications are strong at the State House that Gov. Foss will not refer to the Executive Council the petition for the commutation of the death sentence of Clarence V. T. Richeson, and that the latter must pay the death penalty for the murder of Avis Linnell within the week beginning May 19. The Governor has been pondering the matter for some days, and has been quick to deny the misleading stories published in various papers that he had decided to refer the case or that he had received reports from alienists to the effect that the condemned was mentally unbalanced. No such reports have been made to his excellency.

The Executive Council met at the State House today for their regular weekly session. The members were naturally interested to know whether they would be called upon to sit on the Richeson case. When the matter was not referred to today several asked the Governor about it. They received something more than a mere intimation from the Governor himself that the commutation petition would not be referred to them.

Most significant of all was His Excellency's utterance to Lieut. Gov. Luce. The latter had planned to leave Boston today for a 10 days stay at his farm in Maine. He asked the Governor whether this absence would cause any inconvenience. His

JUST TRY A TEN CENT BOX OF CASCARETS

Insures You for Months Against a Sick Headache, Biliousness, Constipation or a Bad Stomach

Put aside—just once—the Salts, Cathartic Pills, Castor Oils, or purgative waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage or alimentary organs, and have no effect whatever upon the liver and stomach.

Keep your inside organs pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, coated tongue, Indigestion, Sour Stomach or Constipated bowels. Cascarets belong in every household. Children just love to take them.

Excellency told him to "go ahead to Maine."

In the minds of the Lieutenant Governor and council the incident, as far as they are concerned, is closed unless something entirely unforeseen develops. It is, therefore, closed as far as everybody else, including the prisoner, are concerned. It is not believed that the published story relative to the alleged Mormonism of Richeson had anything to do with the Governor's undoubted present intention not to refer the matter to the council.

NEW CASTLE

The XNtricty of the weather continues to cause general remark. May seems inclined to carry out the programme so heartily endorsed by April. Spring has been delayed in transmission and it looks as if Summer would get here before actual spring.

Mrs. Florence Watson is able to be out after her several week's restriction to her residence by illness.

Rev. and Mrs. J. H. McBride have returned from a visit in Bangor.

Mrs. Addie Frost has returned from a visit with friends in Rye.

Mrs. Josephine Davidson is out after her recent illness.

Mrs. Lydia Grogan has returned from a several months' sojourn in Boston.

Mrs. Jennie Morse of Kittery is the guest of friends.

Dr. Sutter and family of Boston have opened their summer residence.

Mr. James Sylvester has moved his family into the Frost cottage.

Mrs. Leander White is visiting in Newport.

Miss Ella Grogan, after a brief visit with relatives, has returned to her home in Boston.

Miss Nellie E. Leary is visiting relatives in Roxbury.

Mrs. Josephine Davidson is able to be out after her recent illness.

Mrs. Leander White is visiting in Portland.

The Queen City is back on the job after the detention occasioned by the slight repairs. This convenience

is very much appreciated by the people.

NEWINGTON

Helen and Harold Staples have returned home after spending a few days with their aunt.

Mrs. Lyman Staples and daughters Ruth and Elsie of So. Millot, passed Sunday with her sister, Miss Mary Pickering.

Albert Phillips of Portsmouth spent Sunday with the Misses Abbie and May Frink.

Owing to the illness of Rev. Mr. Smith there were no services on Sunday.

The many friends of Mrs. Frances Staples will be sorry to learn that she is seriously ill at the home of her sister, Mrs. Abbie Coleman, in Greenland.

The Piscataqua grange held their usual meeting on Tuesday evening. All the members were greatly pleased with the appearance of the hall. It was opened for the first time since its renovation. The walls have been painted a cream color with a fancy frieze around the top, and one could not fail to see the difference between the old dark walls and the new.

The work on the district roads is nearly finished and a great improvement has been made.

The dam at Peverly Brook is nearly completed.

It is rumored that the excavation which has recently been made under the kitchen of Mr. Hawkridge's house at Bayside, is to be constructed into a basement kitchen.

Mr. Wm. Furber is the only person in this vicinity who has set out a strawberry bed. The people in general are waiting for warm days to start the runners.

It is rumored that milk will be cheaper during the months of May and June. This seems scarcely right as high as hay is, and the inspectors requiring so much of the producer, one could receive a fair recompensation for their milk, the producer would be willing to meet all reasonable requirements, but as the case now stands they think too much is required of them.

Owing to the high price of hay and because the grass in the pastures is two weeks in advance of last year the farmers are turning out their cows and young heifers.

The Garland boys have a right to be proud of their pony. He is a beauty and they indeed cut quite a swell. The people living in that part of the town watch for the pony as the children pass to and from school.

The property belonging to the late Asa Wentworth has been sold. The purchaser has torn down the old set of buildings and is erecting a handsome bungalow.

The democrats held a caucus on Saturday evening and elected John Greenough and Stillman Packard as delegates to the convention.

Parents get Wrong Baby.

Owing to an interchange of the admission orders of two baby boys who were taken to Glasgow hospital on the same day, one of the babies, who recovered before the other, was, on being discharged, handed over to the parents of the other baby.—London Mail.

Three Kinds of Men.

There are three kinds of men in the world—those (the best) who make jokes, those who can enjoy jokes, and those (the worst kind) who attempt to explain jokes.—G. K. Chesterton, in London Daily News.

Power of Two Words.

"I will," is a projectile that hits the mark; a power that moves mountains.—Henry Wood.

Well to Guard One's Thoughts.

The character of our thinking determines the nature of our ideals.

Laziness.

Persons may share the common complaint of laziness without any appreciation of how far it is responsible for the saddest cases of mental and moral disintegration. Laziness is really the key to a large share of what passes for lack of balance and perhaps for insanity. It takes hold in the schoolroom where pupils slight the work they most need because they like it least. Having skirted the studies which would have done most to balance their mentalities, they proceed to emphasize this lopsidedness by refraining from every line of endeavor which is not to their liking. They find a hundred excuses for doing so, but nearly always their excuses are not reasons. They do only what they like until finally they do not like doing that. Then they drift and regret that the ravens of today are not as active in their charities as in the days of Elijah.

Died Cheering the Kaiser.

The bravery displayed by the musicians on the Titanic and the similar exhibition on the English ship Birkenhead recalls also the patriotic conduct of the band on board the German gunboat Illte, which went to the bottom of the Chinese sea on August 26, 1896. The scene was at that time described by one of the few survivors of the disaster, which claimed 118 of the 119 crew. He said that the men stood at parade, the band played "Heil Dir im Siegerkranz" with all the precision and force of which they were capable and swinging their caps, the officers and men went down cheering the Kaiser.

Women Fought With Pitchforks.

A duel with pitchforks took place at Dijon, near Paris, France, the other day, between two women. They both worked in a biscuit factory, and were continually quarreling. The women in their workroom, tired of the perpetual bickerings, advised them to settle their differences in a fight. The two women armed themselves with pitchforks and fought in a lonely field. News of the duel soon spread, and the police hurried to the field, where they found one of the women lying unconscious with a wound in her head.

HOW HE SOLVED PROBLEM

Bquire Perkins Quickly Explained the High Cost of Living to the Village Loafers.

We were sitting around the redhot stove in the lobby of the village tavern, and just when a silence had fallen upon the group one man turned to another and asked:

"Squar' Perkins, if you don't mind, I'd like to ask you a question."

The squire didn't say whether he minded or not, but the other went ahead with:

"It's about this 'ere high cost of living. Have you figured out what's the reason for it?"

"I have," was the answer.

"Then I'd like to hear it."

"Did you raise any wheat, corn or oats last year?"

"Noap."

"Any potatoes, beets or carrots?"

"Noap."

"Didn't raise nothing whatever to eat?"

"Guess I didn't."

"Just ate all you could of what other folks raised?"

"Looks that way."

"And not around and let your wife take in washing to support you?"

"Why, she likes to wash."

"Well, I've answered your question. You and 100,000 lazy loafers like you boosted the cost of living!"

I expected to see a row follow, but none came. There was a minute of suspense and then the questioner yawned and stretched and exclaimed:

"Well, by thunder! I've been puzzling over that matter for more'n a year and here you have solved it in three minits!"—Detroit News-Tribune.

HARD-WORKING SWISS DOGS

They Are Used as Draft Animals and Are Not Always Well Treated.

An amended law for the prevention of cruelty to animals, such as that which came into force in England on New Year's day, is much needed in Switzerland. Not that the Swiss as a nation are cruel to animals, one of the best proofs of which is the number of sleek cats about. For when people have learned to be kind to cats they have generally learned to be fairly kind to animals in general. But, whether from thoughtlessness or some other cause, there is a good deal to be desired in the way draft dogs are treated in Switzerland. Dogs, as every visitor to the country must have observed, are still employed there for drawing or helping to draw all kinds of light carts. Most milkmen and bakers employ dogs when taking around milk or bread. Butchers and vegetable fruit sellers also use them. These dogs are, of course, all of strong build, but of very different breeds, those most commonly employed being of the St. Bernard or mastiff race. On a market day the streets of Berne are full of them. As a rule they do not look ill fed and their harness fits them well. Nevertheless, it is evident that they are often hard-worked, for they may be seen lying stretched full length asleep on the cold, wet ground, or even on the snow, and this, after they have been heated by the exertion of pulling, frequently causes pneumonia or rheumatism.—Pall Mall Gazette.

A TURKISH VICTORY REPORTED

London, May 8.—The Governor of the Turkish Island of Rhodes, where Italian troops landed a few days ago, telegraphs: "We have won a victory and have captured 1000 Italians," according to a special news dispatch dated May 8, from Pera, Turkey.

The island of Rhodes, one of the largest of the Turkish Islands in the Aegean Sea, was seized by the Italian troops on May 4. On that date Admiral Viale reported to the Italian Government that troops had been disembarked and that the Turkish garrison had retired to the interior.

DEFENDING THE GUILTY MAN

Frederick A. Brown's Story Illustrates the Conditions That Sometimes Confront the Lawyer.

Frederick A. Brown, a well known Chicago lawyer, told the following story at a recent dinner:

"Attorneys are frequently asked how they can defend men whom they know to be guilty. The reply is that we seldom if ever know that they are guilty. I once, however, became the unwilling attorney of a man whom I knew to be guilty."

"I was in Judge Brennan's court, waiting for a trial to be called, when a negro was brought in, charged with highway robbery. Judge Brennan, finding that he had no attorney, directed me, against my protest, to defend him."

"I took the colored man aside and said, 'Well, are you guilty?' and to my surprise he replied, 'Well, boss, they found the pocketbook on me and have twenty witnesses to prove it.' He then went on to tell me that he had snatched a woman's pocketbook on Thirty-ninth street and Cottage Grove avenue on a Saturday afternoon, ran west in Thirty-ninth street, turned up an alley, with a crowd after him, who caught him as he was getting over a six-foot board fence."

"In looking at the indictment I found that he was indicted under the habitual criminal act, under which he could be sent to the penitentiary for forty years. I returned to the court-room and insisted that Judge Brennan should appoint some other lawyer, which he refused to do. I then made the proposition to the prosecutor that if he would waive the habitual criminal count I would have my man plead guilty and save the cost of a trial."

"This was agreed to, the darky was delighted, pleaded guilty, and received the minimum sentence. After it was all over the darky turned to me and said, 'Boss, that was so easy that I believed if you half tried you would have got me clean off.'"

NEW WAY OF SAVING MONEY

How a Number of Working Girls Are Accumulating a Fund for Vacation Trips.

Some girls working in a certain trust company have organized a most unusual method of saving money for their vacation trips. Two of the girls out of the thirty-five that have entered into the plan are appointed trustees, and the first Saturday in July (any month can be chosen) each girl pays just two cents. With thirty-five girls that makes seventy cents, which is duly deposited by the trustees in the bank.

Beginning with the week following the assessment grows to four cents, then six cents the next week, and so on, increasing two cents each week, but the increase is so very gradual that it is no great effort to put the amount away.

The following June the money is drawn out and each girl receives the amount that she has paid in, which would be \$28.50, the saving beginning in July plus about \$1 interest. You will readily see that the amount saved will provide a girl with a nice two weeks' vacation and it is almost like finding money. Until Christmas, when they need money most, the assessments are nominal, the "big" ones coming in Lent, when one does not need so much spending money.

As the rule was made in the beginning that anyone who failed to pay would lose what she had already put in, everyone makes it a point to pay promptly. One good clause in the laws stipulates that if any girl loses her position or marries she can withdraw the amount that she has put in.—Harper's Bazar.

German Court Balls.

In the German court balls not all those who are invited are permitted to take part in the dances which the Kaiser witnesses.

The Kaiser has no love for "the quick and slovenly." Many months before the ball the selected couples rehearse the dances under the direction of Frau Ida Gasperl, mistress of the court ballet. The Kaiserin criticizes freely the ladies and gentlemen who show any shortcomings. The ordinary rehearsals take place in one of the chambers of the palace, but the final rehearsal is held on the eve of the ball, at the residence of one of the invited.

The Princesses royal carry trains held by two pages, but the other ladies have to manage their own. For married ladies the length prescribed is about 11 feet 6 inches, the trains of the other ladies being rather more than half a yard less.

Peccoliar Western Banks.

The difference between the American east and west so strongly emphasized by rhetoricians and meteorologists extends even to the banking system. In the west they lend money on reputation, in the east on security. On a day in June last, six little banks in Seattle had lent on individual or firm notes without any other security than the names \$5,597,000; while the whole national bank group in New York had lent on similar paper only a little more than \$8,000,000. On that same day, in San Francisco, the loans of this sort amounted to more than \$47,000,000.

The western system is one of credit based upon industry, and upon much closer and more accurate knowledge of the man himself than can ever be possible in the bigger eastern cities.—World's Work.

BAD YEGGMEN OPERATING IN NEW ENGLAND

Postoffice Inspector H. W. Riblinson, deputy Supt. William E. Watts of police headquarters and Supt. George E. Leith of the Pinkerton National Detective Agency of Boston, are diligently seeking seven men; formerly desperate and successful yegg burglars, who they believe have been blowing open safes in Postoffices, banks and business houses in New England for the past few months. The men who are sought are known to have been in Boston from time to time.

They are known as Thomas Monahan, alias "Uncle Tom," alias Thomas Wright; Harry Wilson, alias "Shooney Harry," alias Harry Berger; Harry Diehl, alias A. Clark, alias John Edwards; William Driscoll, alias "Ottawa Irish," alias Thomas Morris, alias Tom Darrell; Charles Cameron, alias Charles J. Perkins, alias "Johnsonberg Shorty"; "Gussie" Trainor, or Traynor, alias "Bangor Gussie," and Arthur Burns, alias Arthur McAvoy.

The detectives have followed them throughout New England recently in the effort to capture them, but they have managed every time to escape arrest.

Because their pictures have been recognized in places where Postoffice safes had been robbed and they are known to have been in Boston at the time that safes in business houses and private banks have been looted, the police have sufficient evidence to warrant their rearrest. They are all well known to the police and their pictures are in the rogues' gallery at headquarters.

They dress shabbily, like tramps and are weather beaten, from exposure. They travel from place to place on freight trains and sometimes walk. At times they impose on the public by pretending to be deaf and dumb and crippled by rheumatism. They also show large

scars upon their arms, carry their arms bandaged and tell stories of having been crippled in wrecks.

While they are going about begging they obtain information concerning banks and postoffices and where large sums of money and postage stamps are kept in safes, into which they know how to break by the use of nitro-glycerine. They patronize the lowest saloons and "dives" and the cheapest lodging houses, and they have been known to live in rudely thrown-together huts in the woods, and do their own cooking.

They are known to have been in Canada, New York and New England. They have been traced to Rouses Point, N. Y.; Montreal, Quebec, White River Junction, Bellows Falls, Vt., Berlin, N. H., Portland, Lewiston and Bangor. They are all fugitives from justice and rewards aggregating more than \$1000 are offered by the Postoffice Department for their arrest. The first three are wanted on a charge of blowing several safes in Pittsburg. The police of the country have been warned to take no chances with them, as it is thought they will shoot to kill any officer who attempts to arrest them.

Those guilty of some of the recent safe-blowings in New England stole horses and carriages and even automobiles, to aid them to make their escape from the scenes of their crimes. It is feared by the police that when they are finally rounded up there will be a scene not unlike the finish of the automobile gang in Paris, France, which created a world-wide sensation and cost the life of one of the most celebrated detectives in the world.

Every possible effort is being made by the authorities to warn country postmasters against these desperate criminals, so that a watch will be kept for them and a warning may be sent out for help the moment they appear in any of the small towns, to prepare to make one of their raids upon its banks and post office.

Don't let the baby suffer from eczema, sores or any itching of the skin. Doan's Ointment gives instant relief, cures quickly. Perfectly safe for children. All druggists sell it.

SORE Throat and Cold in Chest are quickly relieved by Omega Oil. The Oil goes in through the pores of the skin to the inflamed parts, giving quick relief. Trial bottle 10c. Large bottles 25c and 50c.

NO FIELD FOR THEIR WORK

How The Good Young Man From California Set the Card Sharpers Right.

There are good men in California, very good men, and shrewd men, too (according to Eli Perkins). One day a real good young man, who used to teach a Bible class in San Francisco, boarded the Union Pacific train at Ogden. He was going home to Boston as a delegate from California to the Massachusetts Sunday-School association. He was neatly and sweetly dressed, and spent most of his time reading the Christian at Work. After a while he got introduced to a colonel, a professor, and a doctor, who said they lived in Boston, and they invited him to take a quiet game of euchre. During an animated religious conversation, three aces were thrown on his side of the table, after which one of the Bostonians gayly remarked, with the greatest coolness, "I wish that we were playing poker. I don't know that I have been favored with such a hand for years." Our religious young man from San Francisco immediately saw the game of the sharpers, looked up innocently, and remarked: "I have been favored also. I have a pretty good poker hand myself." The three looked at each other significantly. "They call you professor?" asked the young man from San Francisco. "Yes." "And they call you colonel?" "Yes." "You are from the East, I believe?" "Yes, from Boston." "Well, gentlemen," he continued, rising, "you had better take the next train back. We meet it just the other side of the Grand Canon. You can't make a cent at this. They have been teaching it in the Sunday-schools in California for years."

NO MORE SPREES FOR HIM

Changing the Letter on Stenographer's Typewriter Cured Him of the Drink Habit.

In a certain railroad office in the West Bottoms is a stenographer, upon whom his employer places considerable confidence, for he is one of the best in the business. Only one shortcoming has ever been found against him, but this was a grievous one, the kind that was increased 100 per cent when the bi-monthly pay law went into effect. Long and faithful service kept him from being discharged, and his employer was very lenient. From month to month, however, it could be noticed that he was slipping a little more with each payday. Finally one last plan was decided upon to keep him in the service and prevent his falls from the wagon.

During an absence following a pay day a typewriter mechanic was pressed into service, to change the letters on the machine around. The next morning the stenographer reported for work, with evidences of a "hangover." His employer started on him good and early, with a message which was to be rushed.

The stenographer started work. The result was something of an "x-51" affair. Finally he decided "it was no use."

"I guess I have been cutting up a little," he said. "I expect I better take a day off and sober up."

It was agreed then, and during the day of sobering up, the letters on the machine were set back into place. The plan worked and though the incident occurred six months ago, the stenographer hasn't missed a day.—Kansas City Journal.

Novel Uses for Pearls.

Probably Darius Green never had a dream that his flying machine would be used in a scheme to prove to wild hunters in the Philippine Islands that they were inferior to white men. This political project, however, was tried by Aviator L. Hammond, who at the request of the governor of the islands, gave to the chief of a tribe of Igorrote hunters his first aerial ascension. The tribesmen were very apprehensive regarding the result, and even the chief himself took his seat in the car with ill-concealed trepidation, but after making a lofty flight over the Ieper colony and the surrounding country, he was brought back safely to the starting point, fully convinced of the absolute supremacy of the paleface.

Varied Uses of Pearls.

During the palmy days of the Roman empire pearls were greatly esteemed as ornaments by the women of fashion, though after its downfall they were again chiefly used for the decoration of inanimate objects, and it was not until medieval days that they again served the purpose of personal decoration. In England they were not really appreciated for the latter purpose until the fourteenth century. Yet throughout every country and in every country from comparatively early times we see pearls depicted by contemporary artists in such of their works as survive.

His New Job.

A colored shoe shiner at a hotel barber shop here had been after Representative Steinhorn of Minnesota one of his customers, to get him some kind of a government job. He said he had a brother in Pittsburg who held a political job that paid him well. His impression was that his brother made something like \$1,500 a year.

"What does your brother do?" asked Steinhorn.

"Don't know just exactly what his duties are," replied the boy, "but he's been appointed what they call a ward healer."

Musical by Wentworth and Marden. Tickets 25 cents.

Now is the time to have your lawn mowers sharpened and put in order. Umbrellas and carpet sweepers repaired at Horne's, Daniel street.

E. Jameson and Son will deliver lobsters and fish of all kinds to any part of the city, Tel. 652.

The hand organ man and his monkey have again made their annual appearance, which would seem to indicate that summer was at hand.

Second hand engines and boats at the lowest prices in New England. One hospital tent with fly, also army cots and nets for sale at Union Wharf, off Water street.

The members of the Epworth state council of the Daughters of the League believe that in offering the Liberty being held in this city to Lotus Quartette and their assisting day are Mrs. Mina Titus, Mrs. W. H. Strawn, Mrs. James U. Ross, again giving the people a musical treat, and literary entertainment of the severance, Mr. and Mrs. William highest class. First M. E. church, Merritt and Miss Flora Blodgett, all May 21, at 8 o'clock.

PERSONAL ITEMS

D. C. Langlands today reaches another milestone in life's journey.

Miss Gladys Young of York Beach was a visitor here on Wednesday.

Mr. and Mrs. F. Lyman of Anisquam are passing several days in this city.

Mrs. Clarence I. Sherwood left this morning for a visit with her parents in Ipswich, Mass.

Charles Howe, the well known sign painter of Dover, was here today on business.

Moses A. Safford of Kittery left this morning for Boston where he will pass several days.

Captain R. J. Easton of the U. S. S. collier Vulcan is at the Hotel Kearsarge for ten days.

Supt. J. C. Whitaker of the Rockingham Light and Power Co. was in Boston today on business.

Mrs. Charles O'Hara and young child of Philadelphia, are the guests of Mr. and Mrs. George P. Knight of School street.

Mr. and Mrs. Charles E. Trafton of this city and Mr. and Mrs. Charles D. Hatch of Exeter left for Meredith this morning on a fishing trip.

Drs. Wallis D. Walker and Edgar O. Crossman attended the annual meeting of the New Hampshire Medical Society held in Concord on Wednesday.

E. E. Sawtelle, who has been passing the winter in Southern Pines, N. C., has started on his return north and will be at York Beach the coming season.

Among those in attendance at the Board of Engineers are going to do with all the fire traps they have been looking over of late?

If the people who reside on Maplewood and Woodbury avenues can raise nearly \$1,500 to help the Boston and Maine extend the tracks in that section of the city, why a little cannot be collected to help keep the Portsmouth and Exeter street line going, with Exeter, Stratham and Greenland to help out?

Why some of the old timers of the Boston and Maine railroad in this city do not join the Veteran Employees Association which has been organized of late?

If a regular tenant officer is not badly needed in this city?

Why the city could not fix up the third story of the municipal building and get a bit of money by letting it

ITEMS OF INTEREST TO EMPLOYEES AT THE NAVY YARD

The Washington Next Week
The cruiser Washington with commander in chief of the fleet is expected to arrive on or before Wednesday next.

Vessel Movements

The Ajax at Hampton Roads.

The Mayflower left Washington for Chesapeake Bay.

The Isla de Luzon left Vicksburg for Greenville.

The Nebraska at Baton Rouge.

The Petrel at Vicksburg.

The Mississippi left Provincetown for steaming trials.

The Louisiana, the Kansas and the South Carolina left Newport for a cruise.

The Hector at Hampton Roads.

The Nansan at Shanghai.

The Montana at Newport.

The Roe and the Terry left navy yard, New York, for Newport.

The Dolphin left Chesapeake bay for Washington.

To Test Her Gear

To test a new elevating gear the battleship Montana, which has just left here, will fire five salvos from her 10 inch guns in Long Island Sound nearly opposite New Haven.

She left early this morning accompanied by the battleship Delaware from which the effect of the firing will be observed with a new photographic device which has been adopted by the navy department.

Doing the Same Stunt

Many persons admired the wonderful manner in which Capt. Ned Evans of the tug Ivana handled the three battleships which he pulled out of the navy yard last week. Although the task is one which ordinarily requires two or three tugs, Capt. Evans is able to perform it with one.

There is always a large crowd on hand whenever Capt. Ned is on the job.—Boston Traveler.

Changes Among Officers

Lieut. Commander C. S. Kempff to navy yard, Mare Island, Cal.

Lieut. Commander E. S. Jackson from Washington Steel and Ordnance company, Gresham Manor, O., to Wyoming.

Lieut. R. L. Berry to Naval War College, Newport, R. I.

Chief Machinist F. G. Randall from

navy yard, Puget Sound, Wash., to Maryland.

Machinist E. W. Abel from Maryland, wait orders.

Machinist A. C. Byrne to navy yard, Puget Sound, Wash.

Fast Game Expected

The Coast Artillery baseball team from Fort Constitution will meet the naval prison at the yard on Saturday afternoon and a lively game is expected. The artillery team is made up of some fast men while the new players have greatly strengthened the prison guard.

To Be in Readiness Aug. 25

The latest orders regarding work on the North Carolina directs that all repairs and alterations by every department be completed by August 25.

Department Now Wants Coal Out

Orders were received today to remove the coal from the Vulcan which counteracts the previous orders received shortly after the vessel arrived here. The work will begin as soon as the mast is removed from the North Carolina and the cruiser can be moved to another berth.

North Carolina Men Out With Challenge

The crew of the cruiser North Carolina appear to have opened up the sporting season with a sweeping challenge to any base ball or foot ball team in this section. Any communications on the same should be addressed to Manager Barrett, C. P. O., U. S. S. North Carolina.

A Few of Them Got Work

A few of the machinists who have been furloughed in the hull division for lack of work, have been called for duty under master mechanic Hayes of the outside mechanics' force.

Trying Hard to Get the Addition

Some strenuous efforts are being made by yard officials for the addition needed for building No. 80 of the machinery division. One hundred feet or more is necessary for storage purposes and to facilitate the large amount of work that is carried out there.

I WONDER

If any of the fast men from this city will enter the five mile race for state runners at Newmarket on Decoration day?

Why the Annanville Club doesn't get some of those Pilot men who are making such big catches of fish?

What the Dover parties want the handrub True W. Priest for?

If there would not be some rivalry between the Cochocho boys and the Gaspsys here if one of the tubs should land in Dover?

If the baseball team at Fort Constitution will not be fast on the diamond this season?

Why the team was not considered for the Sunset League as well as Kittery?

If the roadbed of the Portsmouth and Dover branch of the Boston and Maine does not need the attention of the section crew between Rollins Farm and Portsmouth?

If the high price of beef is the reason that the Young Emmets and the Keystone club have not sat at the festive board yet?

If the public works department are not down to hard pan on the money for sidewalks?

What the Board of Health and the Board of Engineers are going to do with all the fire traps they have been looking over of late?

If the people who reside on Maplewood and Woodbury avenues can raise nearly \$1,500 to help the Boston and Maine extend the tracks in that section of the city, why a little cannot be collected to help keep the Portsmouth and Exeter street line going, with Exeter, Stratham and Greenland to help out?

Why some of the old timers of the Boston and Maine railroad in this city do not join the Veteran Employees Association which has been organized of late?

If a regular tenant officer is not badly needed in this city?

Why the city could not fix up the third story of the municipal building and get a bit of money by letting it

for entertainments while dance halls are so scarce in this city?

If the new school superintendent has not his hands full in chasing up the "hookists"?

EDISONIAN THEATRE

For Wednesday and Thursday we are offering a bill of exceptional worth, featuring a subject which gives us much pleasure to present. This magnificent production shows one of the finest managed mob scenes shown on any stage. There are 75 people in the mob, and they are all good supers, and are all there for a purpose and they strengthen the assembly. There's an interesting center plot which brings out strongly the emotional and intensely dramatic values of the entire production, "A Man's Man." The other features include "The Fugitive," showing rough riding and cutting capers.

"The Tables Turned," where a young wife feels madness to punish a flirty husband, who retaliates by also going mad but is landed in a sanatorium.

"Extravagance," an interesting picture telling a story of every day life.

"A Love Chase," a comedy drama. Latest in illustrated songs.—Dancing as usual.

For Friday evening, during the first three reels Blum's All Star Orchestra will play among other selections, overture, "Little Cavalry," by Suppe, a selection from Mikado by Sullivan, "Moonlight Dance" intermezzo, by Herman Fink. Mr. G. Erick Abbott will render a cornet solo.

MR. HORTON HAS A NEW CAR

The last word in automobiles has arrived in Portsmouth—it is the Everett Six Cylinder car, and A. W. Horton of the Sinclair Garage has taken the agency in connection with his other line. The car is a beauty and it attracted considerable attention on the streets on Thursday. Mr. Palmer of the chain of 5 and 10-cent stores has disposed of his other cars and purchased an Everett six.

QUINN SAYS APPOINTMENTS VIOLATION OF LAW

Will Put Injunction on Pay
of Newly Appointed
Dog Officers

Charles R. Quinn, after several conferences with Mayor D. W. Badger on the matter of appointing dog officers, claims that if Officers West, Burke and McCaffery, who have been appointed by the mayor in that capacity, receive pay it will be a violation of the law and that he will cause an injunction to be served restraining the mayor from paying any extra money to the officers.

His contention is that they shall perform this work in connection with their regular duties and if given any pay at all, they cannot collect more than one dollar for every dog put to death. The outcome of the controversy is awaited with much interest.

VACUUM CLEANING NOTICE

After two weeks work with our "Aero" Vacuum Cleaning Wagon, we were unable to catch up with our orders. Having made engagements in Dover for cleaning during the next two weeks, we were obliged to leave town. We shall return to Portsmouth on or about May 20th to complete engagements already made and to accept orders for work. Our satisfied customers is our best recommendation. Orders may be left at R. H. Beatham's livery stable or telephone.

E. L. & L. H. YOUNG,
Dover, N. H.

Telephone 255-22.

WILL PLAY HERE MAY 29

Sparks Animal show has been booked to appear in this city on Wednesday afternoon and evening, May 29. The show will pitch its tents on the almshouse field.
